

How to assemble H Inbound packaging

Step 1

Turn the box upside down and fold the flaps inwards.

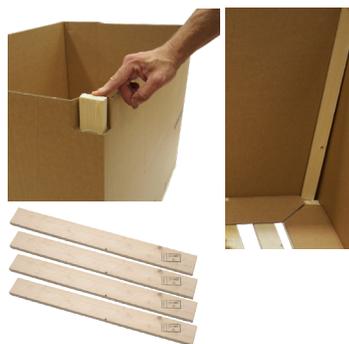

Step 2

Place the box on the pallet.

Step 3

Add the four wooden corners support into the box.

Step 4A

If the side opening is not used, put one side support in the center hole on both sides of the container and lock them with the support holders.

Step 4B

If the side opening should be used, put the side supports to the side of the opening and lock them with the support holders.

Step 5

Add the lid and strap it twice on the long side.

How to assemble H with one collar Inbound packaging
